

First Aid

First Aid Training provides the skills and knowledge to make an impact and save lives in a medical emergency. It is a requirement for many roles and occupations but is also completed as a choice by many people wishing to be empowered and keep those around them safe.

Course Overview

This course teaches the skills and knowledge required to provide a first aid response to a casualty. This course applies to all workers who may be required to provide a first aid response in a range of situations, including community and workplace settings.

There are also specific industries that require additional training such as childcare workers, school teachers and other industries.

Course Units

- HLTAID003 Provide first aid
- HLTAID002 Provide basic emergency life support
- HLTAID001 Provide cardiopulmonary resuscitation

Training Options

Blended Training (min 5 hours)

Students complete some online learning prior to the face to face training and assessment. All topics are covered in the face to face session along with all assessment elements. This delivery method is the most popular as it suits all learner types and strikes a balance between course duration and classroom-based learning.

Face to Face Training (min 7 hours)

This delivery method involves all elements of the training and assessment being delivered in the face to face setting. This is the longest duration of training and
