

Warden

The Wardens are the tactical arm of the ECO, conducting operations as set out in the emergency response procedures such as 'sweep & clear' and directing occupants to evacuate safely.

Course Overview

This course has been designed for individuals who are required to implement an emergency response as specified in the facility emergency procedures or specified by a person at a higher level in the emergency control organisation (ECO). Individuals who undertake this work will be working within the command, control and coordinate structure of the ECO. It includes undertaking pre-emergency planning, taking appropriate actions in an emergency and assisting with post emergency activities.

Furthermore, it also involves the skills and knowledge required to confine small emergencies in a facility and it applies to individuals who are required to have first attack firefighting skills. It includes preparing for emergency situations, identifying and assessing an emergency, safely confining emergencies, using initial response equipment and reporting on the facility's emergency response.

The course has been developed to cover a broad range of emergencies and facilities as considered in Australian Standard 3745 and Australian Standard 4083. It applies to employees in the workplace within all industries and in all contexts.

Course Units

- PUAFER005B Operate as part of an emergency control organisation
- PUAFER008B Confine small workplace emergencies

Accreditation

Statement of Attainment for the above 2 units.

Duration

6 hours of face-to-face training

Or

Online self-paced learning with 3 hours face-to-face assessment
